America's most versatily styled modular wood office furniture

F3360 60" x 30" Working View
(Standard desk with
wood frame support)

F3360SL 60" x 30" Working View
(Optional Wood Frame)

Page 2 and page 4 illustrate five different leg styles available for this series. Each of these is generally available on the pieces which comprise the Spacemaster III Series. This freedom of choice of leg styles—four wood, two metal—adds new decorating excitement to this line. Endless decorator preferences are possible with this one basic group . . . variations not before practical. The wood

legs match the oil finish of the exposed wood parts of the desks themselves. The metal frames are brush chrome finished. To the basic straight line design of Spacemaster III now has been added the new dimension of selectivity of leg styling. This is another example of JOFCO ingenuity and imagination in wood!
